## **Ardian provides financing to support Tiger Infrastructure Partners' investment in Orbis Protect**

Ardian, a global private investment firm, has committed to provide Private Credit financing, comprising a Unitranche and Committed Acquisition Facilities, to support Tiger Infrastructure Partners' investment in Orbis Protect, a leading UK provider of technology-enabled security solutions for critical assets and vacant property. The transaction builds on Ardian's long-standing relationship with Orbis Protect, which began in 2021. Since then, Ardian has supported the business through a period of growth and operational development and continues to partner with management as Orbis enters its next phase of expansion.

Orbis owns and operates a scaled portfolio of deployable security infrastructure, including approximately 2,500 mobile CCTV towers and more than 4,000 cameras and alarm systems, alongside perimeter fencing, barriers and other physical protection assets. These solutions are rapidly deployed to customer locations to deliver temporary and semi-permanent site security under contracted arrangements across the UK.

*"We are very pleased to be backing Tiger Infrastructure Partners, alongside a very strong Management team with whom we have worked for the last five years. The transaction highlights our ability to scale and support businesses through multiple growth cycles, and we look forward to being part of Orbis' next chapter."*
